

Voluntary Product Information (VPI) based on the format of a safety data sheet

Dear Customer,

In the last years TAF ABRASIVI SPA provided information on our abrasive products on a voluntary basis in the format of a safety data sheet.

Under the REACH Regulation the status and importance of the safety data sheet has changed. Safety data sheets are documents with a legally defined scope which have to fulfill certain requirements related to the format and content (Annex II of the REACH Regulation). Following the REACH Regulation the communication of important information via Safety Data Sheets (SDS) is only foreseen for **substances** and **mixtures**. For **articles** a safety data sheet is not foreseen under REACH.

Abrasive products meet the criteria of **articles** according to REACH with exemption of polishes and pastes which are defined as mixtures or substances. Consequently no safety data sheets have to be provided by abrasive producers for most of their products.

However, many customers of the abrasive industry are used to the format and structure of a safety data sheet and prefer the communication of information on abrasive products in this form.

Therefore the abrasive industry has decided to continue to provide this voluntary information on a safe use and handling of abrasives in the form of a

“Voluntary Product Information (VPI) based on the format of a safety data sheet”.

This voluntary product information follows the general structure of an SDS (16 sections). But as certain sub headings are not relevant due to the article status of abrasives these are not included.

Please be aware that the provision of these documents is a voluntary service. There is no requirement of the abrasive industry to provide this document.

We hope that this decision of the abrasive industry is in line with your internal quality requirements.

If you have any questions please do not hesitate to contact us.

**Voluntary product information based on the format of a safety data sheet
for coated abrasives**

1. Identification of the product and of the company/undertaking

1.1 Product identifier

FLAPWHEELS

1.2 Use of the product

GRINDING AND FINISHING OF DIFFERENT TYPES OF MATERIALS

1.3 Details of the supplier of the voluntary product information:

Company: TAF ABRASIVI S.p.A.

Address: Via Beato Angelico 29/31

20900 MONZA MI ITALY

Phone: +39-039-206931 Fax: +39-039-2021549

E-mail: export@tafabrasivi.it

National contact:

1.4 Emergency telephone number:

POISON CONTROL CENTER NIGUARDA HOSPITAL – MILAN - ITALY +39-02-66101029

2. Hazards identification

2.1. Classification

Not applicable

Abrasives are articles and not dangerous substances or mixtures according to directive 1999/45/EC or Regulation (EC) N° 1272/2008.

See also section 8 and 16.

2.2. Label elements

Abrasives are articles and not dangerous substances or mixtures and therefore no labelling is required according to directive 1999/45/EC or Regulation (EC) N° 1272/2008.

2.3. Other hazards

Not known.

FABRICANTS DE PRODUITS ABRASIFS

Reference / Product name: FLAPWHEELS
Version/Revision (date): 02/16.6.16
Printing date: 16.03.2017

page 2 of 6

3. Composition/information on ingredients

The product contains the following ingredients which are classified according to 67/548/EEC or Regulation (EC) Nr. 1272/2008 or for which a community occupational exposure limit value exists:

Substance	EC-N°	CAS-N°	REACH Registration N°	Conc. (%)	Classification acc. to Regulation (EC) N° 1272/2008 (CLP)		Classification acc. to Directive 67/548/EEC
					Hazard classes/ hazard categories	Hazard statements	
Cryolite = Sodium aluminium fluoride	237-410-6	13775-53-6		1%- 13%			T; R48/23/25 Xn; R20/22 N; R51/53

(For full text of H- and R-phrases see section 16)

4. First aid measures

See also section 8 and 16

4.1. Description of first aid measures

Inhalation: Not possible, due to the form of the product
 Eye contact: Not possible, due to the form of the product
 Skin contact: No harmful effects known
 Ingestion: Not likely, due to the form of the product; if necessary contact physician
 Note to physician: Not available.

4.2. Most important symptoms and effects, both acute and delayed

Not known.

4.3. Indication of any immediate medical attention and special treatment needed

Not relevant. Treat symptomatically.

5. Fire fighting measures

5.1. Extinguishing media

Extinguishing media: water, foam, sand, powder or CO₂ as appropriate for surrounding materials

FEDERATION EUROPEENNE DES
FABRICANTS DE PRODUITS ABRASIFS

Reference / Product name: FLAPWHEELS
Version/Revision (date): 02/16.6.16
Printing date: 16.03.2017

page 3 of 6

5.2. Special hazards arising from the product

Toxic fumes may occur. Use respiratory protective equipment.

5.3. Advice for fire fighters

Extinguishing materials should be selected according to the surrounding area.

6. Accidental release measures

Not applicable.

7. Handling and storage

Follow instructions of grinding machine manufacturers and the relevant national regulations. In addition, observe the safety recommendations of the manufacturer.

8. Exposure controls/personal protection

8.1. Control parameters

Before grinding it is recommended to perform a risk assessment and to use personal protection equipment accordingly.

Occupational exposure limit values and/or biological limit values

Keep exposure to the following components under surveillance.
(Observe also the regional official regulations)

Limit value type (country of origin)	substance	EC-N°	CAS-N°	Occupational limit value				Peak limit	source, remark
				Long term		Short term			
				mg/m ³	ml/m ³ (ppm)	mg/m ³	ml/m ³ (ppm)		
	TOTAL DUST			10					

Note: Hazardous dust of the workpiece material may be generated during grinding and/or sanding operations. National regulations for dust exposure limit values have to be taken into consideration.

8.2. Exposure controls

8.2.1. Individual protection measures

- 8.2.1.1. Respiratory protection: Use respiratory protective equipment
(type depends on specific application and material being ground)
- 8.2.1.2. Hand protection: Wear protective gloves
(type depends on specific application and material being ground)
- 8.2.1.3. Eye protection: Wear protective goggles or face shield

page 4 of 6

(type depends on specific application and material being ground)

8.2.1.4. Hearing protection: Use hearing protection

(type depends on specific application and material being ground)

8.2.1.5. Body protection: Use protective clothing

(type depends on specific application and material being ground)

9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

- 9.1 Physical state: solid
- 9.2 Colour:
- 9.3 Solubility in water: not soluble

9.2. Other information

None.

10. Stability and reactivity

10.1. Reactivity

Coated Abrasives are stable when handled or stored correctly.

10.2. Chemical stability

No decomposition in normal use.

10.3. Possibility of hazardous reactions

No dangerous reactions known.

10.4. Conditions to avoid

Coated Abrasives are stable when handled or stored correctly.

10.5. Incompatible materials

No dangerous reactions known.

10.6. Hazardous decomposition products

At temperatures exceeding 250° C hazardous or toxic decomposition products may be generated.

11. Toxicological information

11.1. Information on toxicological effects

No toxicological effects if inhaled or swallowed or with eye or skin contact are known.

See also section 8.

page 5 of 6

12. Ecological information

12.1. Toxicity

No effects known.

12.2. Persistence and degradability

No biodegradable potentials known.

12.3. Bioaccumulative potential

No potentials known.

12.4. Mobility in soil

No potentials known.

12.5. Results of PBT and vPvB assessment

Not relevant.

12.6. Other adverse effects

No effects known.

13. Disposal considerations

13.1. Waste treatment methods

13.1.1. Product

Follow national and regional regulations.

⇒ Due to the ingredients and properties disposal as non hazardous waste (2000/532/EC) is possible if no hazardous materials are added to the abrasives. (EWC – Nr. 120121),

○ Due to the ingredients and properties disposal as hazardous waste (2000/532/EC) (EWC – Nr. 120120)

13.1.2. Packing

Follow national and regional regulations.

14. Transport information

The product is not covered by international regulation on the transport of dangerous goods.

15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the product

No specific labelling requirements under respective EC directives.

15.2. Chemical safety assessment

Not relevant.
