

## THE ZIRCO-CERAMIC REVOLUTION CONTINUES...

### UNMATCHABLE PERFORMANCES

The premium zirco-ceramic cloth combines the extremely fast cutting action of the zirconium together with the longer lasting life of the ceramic grains

### TRIMMABLE BACKING

Plastic backing plate has been specifically formulated to obtain the optimal wearing out of the cloth, always exposing new fresh grains on the edge that extend the life of the disc

### TEMPERATURE UNDER CONTROL

The top-size coating increases grinding performances and reduces pressure-generated heat, preventing bluing or other discoloration of the workpiece surface

### SUPERIOR COMFORT

Thanks to the plastic backing which generates less vibrations and provides a smoother approach to the workpiece

### ZIRCO-CERAMIC DISCS - FLAT

Item	Diameter mm	Bore mm	Grits				Max rpm
TRT53	115	22	80	60	40	20	13200
TRT63	125	22	80	60	40	20	12000

### ZIRCO-CERAMIC DISCS - TAPERED

Item	Diameter mm	Bore mm	Grits				Max rpm
TRT54	115	22	80	60	40	20	13200
TRT64	125	22	80	60	40	20	12000
